Experience

Freelance Frontend Developer   Dec 2022 – Current
Self Employed

- Delivered 3 professional websites using HTML5, CSS3 (+ Tailwind, BEM), JavaScript and React best practices
- Improved website performance by compressing, caching and lazy loading images and components
- Included responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world

Frontend Developer Support   Dec 2022 – Current
Frontend Simplified

- Supported 100+ students using HTML, CSS, Flexbox, JavaScript and React best practices
- Utilised debugging best practices using Google Chrome inspect element tooling
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests

Projects

Netflix Clone | Website | GitHub

- Created a powerful Netflix clone with Firebase authentication, server-side rendering and custom hooks using a NextJS framework
- Utilised Tailwind CSS and Material-UI to create a fully responsive UI identical to the real Netflix

Library App | Website | GitHub

- Developed a library e-commerce app in React which uses a mock API to imitate dynamic API fetches
- Featured a fully responsive UI with skeleton loading states
- Included full cart functionality and logic using JavaScript

Fitness App | Website | GitHub

- Built a fitness app using React which uses RapidAPI to make dynamic API calls and fetches, including comprehensive search functionality
- Designed an attractive user interface using Material-UI and improved performance by lazy loading images

Education

Bachelor of Software Engineering (Honours)   Jan 2022 – Current
University of Sydney

- Current third year (penultimate) student with an expected finish in December 2025
- Maintained a Distinction average in both my first and second year
